SUMMARY

Full Stack Developer skilled in MERN stack, Next.js, and Tailwind CSS. Passionate about building clean, responsive web applications and continuously learning new technologies to deliver impactful solutions.

PROJECTS

Weather App 2025

- Built a responsive weather web application using React, Tailwind CSS, and the OpenWeather API.
- Implemented dynamic backgrounds and animated UI transitions using Framer Motion.
- Added real-time weather updates and search functionality for multiple cities.

Todo App 2025

- Developed a CRUD-based Todo application using React and local storage.
- Practiced component design, state management, and event handling.
- Focused on clean, responsive UI using Tailwind CSS.

Portfolio Website 2025

- Designed and built a personal portfolio website using Next.js and Tailwind CSS.
- Showcased projects, skills, and technical blogs for professional visibility.
- Ensured mobile responsiveness and optimized page performance.
